

HARDT O FIND DISTRICTS (1856 – 1883)

By: Enrique Sánchez García

AGUILAS IMPERIALES 1864 - PERIOD IV

The following table shows a summary, where you can see for each denomination, which districts occupy the first 3 places in terms of scarcity, and an approximation of the prices of the stamps in each case. These prices are generic, that is, they do not consider the quality of the stamp, the additional bonus for cancellation, color, margins, type of plate, invoice number, errors, or any other factor that may interfere with the generic price. These prices (USD) are quantified based on specialized catalogs and recent auctions, if any, at the time of this writing (2024).

The stamp shown in each case is **only an example of the design**, and is not necessarily a photo of the stamp from the districts mentioned as rarer.
